APPROACH

“If there is a system it can be repeated”

Committed to a classical system proven over centuries with progressive techniques and current experience, Andrea has provided professional equestrian services for over 30 years. Dedication to ‘The Horse’, Andrea has developed a workable system for spreading knowledge and confidence to horse and rider. Focus on position and flat work. Maintain consistent language to promote long term understanding and retention. Riders will develop an understanding of concepts. If there are methods there can be growth. Consistency creates change.
